

### THE OMEN

On April 11<sup>th</sup> 1912, the Titanic arrived at Queenstown in Ireland. Just before her anchors were raised, a man, black from his work of putting coal into the ship's boilers, appeared out of the funnel. People believed this was a bad omen.

### THE TRUE STORY

The Titanic, one of the biggest liners ever built, started out on its first voyage from Southampton, England to New York on April 10<sup>th</sup>, 1912, with a crew of 892 people and 1,316 passengers.

On April 14<sup>th</sup>, although they had received warnings, the crew of the Titanic saw an iceberg in front of them. It was too late to do anything - the ship hit the iceberg. There were 20 lifeboats on the Titanic, with a capacity for 1,178 people - not enough for the 2,208 people on the ship. What is more, lots of people did not want to leave the ship - until it was too late. The lifeboats went away with about 650 people in them, while 1,559 passengers and crew remained on board. Only fifty-five people survived the icy water - 705 people survived altogether.

**Leonardo Wilhelm DiCaprio** was born on 11 November 1974 in Hollywood, California. Leo, as his friends call him, has been on television and in films since he was very young. When he was 3 years old, he appeared in an educational programme called "Romper Room", but he did not stay in the programme for very long because the producers said he was "uncontrollable"! He was offered the part of Robin in *Batman Forever*, but he turned it down. He speaks English and German fluently. Why did he become an actor? Well, he once said that he wanted to be an actor because all the girls would see him! In *Titanic* he plays third-class passenger Jack Dawson.
